Background: The Coronavirus Aid, Relief, and Economic Security Act (CARES) Act reserved money from the Coronavirus Relief Fund (CRF) for payments to Tribal governments. On June 25, 2021, the Supreme Court held in *Yellen v. Confederated Tribes of the Chehalis Reservation* that Alaska Native Corporations (ANC) are eligible for payments from the CRF. This made Alaska Peninsula Corporation (APC) eligible for funding under the Tribal portion of the allocation. APC's board has allocated the funds it received to the Native Shareholders and directed management that we are required to make direct distributions but in compliance with the requirements and limitations of the CARES Act.

Application: APC will provide APC's Native shareholders with a one-time payment of up to \$ 160 to alleviate COVID related economic hardship and impacts the pandemic caused. The following application will need to be filled out and returned via email or mail to the Alaska Peninsula Corporation **on or before November 1, 2021**. To qualify for this financial assistance, the Shareholder must:

- Provide information demonstrating a negative impact or a need for financial support currently due to the COVID-19 public health emergency.
- Be an eligible Shareholder at the time the assistance is granted.
- Not have received relief for the same COVID-19 related loss from another entity distributing CARES Act funds (double-dipping).
- Certify that the application information is true and correct.

Funds are limited so individuals are encouraged to apply as soon as possible. Please ensure the application is correct and complete. Questions left blank may hinder the process.
